He also attends Scouts once a week. He recently went on a hike with all his friends and scout leaders and showed great leadership skills during the hike.

We are enormously proud of you Nelson!

NEWS

UPDATE: NDIS changes proposed by the government: in force by 2030

Over the last few weeks, the government have proposed some changes that they would like to make to the NDIS.

These changes are not in force yet, but they are aiming to have the following in place by 2030.

They are reviewing all participants on the NDIS, in aim to reduce participants from 760,000 to 600,000.

They are making it mandatory for providers to be registered to provide personal care, and assisting with daily living. The team at LMD are setting goals to achieve registration in the next 12 months.

They are reducing funding for Community, social and recreational activities as they believe the funding isn't be used wisely.

We completely agree with these changes. If anyone has any questions, don't hesitate to reach out to us!

UPDATE: New Contact Number

LMD Support Services have a new contact number. You should have received a text message from the below number. If you haven't, please reach out.

UPDATE: Company Registration/ NDIS Registration

Regarding the emailing I sent out a few weeks ago about our aims to become registered with the NDIS, we are in the process of getting everything sorted for auditing (Policies, procedures, compliance etc). After we have accomplished this, we will begin hiring of staff, and registering with the NDIS as a service provider.

UPDATE: Feedback and Complaints Forms

Over the next week or 2, you will receive an email that will have a Feedback and complaints form attached. If you could all please fill this out and send it back to us, that will be amazing!

This will help us to continue providing high quality supports.
